**DREMEL IGNITES EXCITEMENT FROM DIYERS WITH LAUNCH OF BUTANE TORCH TOOLS**

*Dremel VersaFlame and VersaTip provide tool users with compact, multi-purpose solutions for a wide variety of everyday applications*

**MOUNT PROSPECT, Ill., (November 11, 2014)** – In its ongoing efforts to offer consumers innovative, multi-purpose tool solutions, the Dremel brand is proud to introduce two new butane torches — the Dremel VersaFlame™ and VersaTip™. The VersaFlame and VersaTip butane torches can be used for everything from soldering to culinary brazing, and are the perfect tools to have on hand to tackle an array of applications.

“The VersaFlame and VersaTip offer our consumers compact, multifunctional tools that are easy-to-use,” said Ed Pehola, product director for Dremel. “With an extra-wide variety of applications in and around the house, these two new tools will help consumers complete projects and crafts with precision.”

**Dremel VersaFlame**

The Dremel VersaFlame multifunction butane torch provides variable temperatures with flame control features for both torch and standard flame operation. Perfect for a wide range of applications such as area heating, pipe sweating, soldering, heat-shrinking wires and even culinary brazing the VersaFlame will be a great addition for users at home or on the job, and it comes in a kit with a variety of accessories.

**Performance & Versatility**

- The tool has a wide accessory range for added versatility, including brazing, soldering, pipe fitting and shrinking
- Integrated ignition switch for easy start-up
- Includes a flame control slider for variable temperature settings
- Contains a large butane tank capacity for up to 90 minutes of runtime

Catalog Number: 2200-01

The Dremel VersaFlame will be available online in November at [Amazon.com](http://Amazon.com) or in-store at Menard’s in December 2014 for an MSRP of \$44.99 USD.

### **Dremel VersaTip**

The Dremel VersaTip is a cordless butane soldering iron and precision torch that is the ideal tool for creative and detailed projects. The VersaTip's precise flame solders, heats, cuts, welds, shrinks and makes decorative burns, and it comes as part of a 14-piece kit with a variety of tips and accessories.

#### Performance & Versatility

- The tool has a wide accessory range for added versatility, including soldering, hot cutting, shrinking, wood burning and area heating
- Contains an integrated ignition trigger for easy start
- Temperature control slider for application-specific heating
