HATCH PROJECT KIT – SKYLINE FACT SHEET

The [Hatch Project Kit – Skyline](#) is an all-in-one painting project that encourages novice Makers to “hatch” creative ideas. It focuses on the incubation and growth of the user’s creativity so that they can finish a project that is uniquely their own. The kit contains all of the inspiration, instruction and materials needed for beginners to create a customized city skyline painting of their choice on wood, from start to finish. The Skyline project kit includes:

- A 12” x 12” wood canvas
- Acrylic paints
- A variety of paint brushes plus pencil, marker, and eraser
- Chicago and New York skyline stencils (with instructions for downloading other skyline stencils at dremel.com/skyline)
- A full alphabet letter stencil

While the Hatch Project Kit includes paint, it is not exclusively for paint. Users can involve other tools, such as a Dremel rotary tool, to further customize their project as they see fit. This could mean adding their own engraving or wood burning to the finished painting.

Users can complete their Hatch Kit with any of the available city skyline stencils:

- Montgomery, AL
- Juneau, AK
- Phoenix, AZ
- Little Rock, AR
- Los Angeles, CA
- Sacramento, CA
